This is Julia Eickmeier. I am currently at Alton Illinois Mental Health Facility. They are abusing me in here. They have added posions to my food on several occasions. I came from Ottawa Illinois, LaSalle County Correctional Center. They went ahead with murderous protocols on me there.

They have added cianide, acid and other poisons to the food here on me October 27th and 29th. They seem to have accepted money from the people at LaSalle County Conectional Facility to follow through with murdering me. They added cianide, acid and other poisons to my food, water and air there as well.

This was an attempt to murder me for a higher up who thought they would get in trouble because of another court case. The authorities there are extreemely unprofessional and they shouldnt be hiring another facilitys personnel to kill me. These workers have accepted their bargain deal. They Attempted to murder me here at the Alton Illinois Mental Health Care Facility.

The case should be transferred from the Northern F.B.I. to the Southern F.B.I. on the grounds that the Northern F.B.I. have negleted handling this case before and the Southern Illinois F.B.I. would be more suitable to handle this case at this time.

There are huge errors on the Judges part that she made on my behalf. She peisistently prosecuted the wrong case, bringing a child into the case when they didnt need to be one.

The child is incorrectly named "Connor Lee Robbins" in the civil case 15-F-153 and she went without proper legal counsel for a long time. She's apparantly being raped by they and their friends who are police officers. They've taken it upon themselves to kill me due to their actions toward her in the other case. Their friends have tried to help them get away with it by attempting to kill me when I was at the County Jail.

Due to this conflict of interest, I've needed a case transfer for a long time. A case transfer right now would be ideal. I'm not trying to end my life over this matter as I value my life and see nothing wrong with what they're doing to her and what the Father's allowed to happen to her since I've been out of her life. She deserves a mom in her life who's life isn't in danger due to how they aim to treat me because of what they're doing to her.

Please find sympathy in your heart to save my life and put a stop to this madness. Please and Thank You very much.

Sincerely,
Julia Eickmeier
